Demos by members make for an enjoyable August meeting

Our August meeting was superbly filled with demonstrations by chairman Jeff Cordery, secretary David Buskell, Gordon Cookson and Francois Greeff.

Here, Jeff shows Bob Higgins (events secretary) how to tackle hollowing.

Earlier, David, Gordon and

On the Table (see page 1) takes pride of place this month with a special mention for Giles Osborne (No. 8) who says: "My first ever item".

Francois kept members glued to their seats with what was billed as the main subject of the evening — refinishing,

Charity shops were high on the agenda for all three speakers as they offer good pieces often neglected and discarded by owners.

Methods of removing old finishes and applying new, as well as techniques for mounting sometimes warped items on a lathe for reworking were discussed.

An excellent evening enjoyed by all. It was felt by many that the formula should be repeated with other subjects.

Francois Greeff in full flow mood

David Buskell offers useful advice

Winging a way forward

Visiting us in September will be Shaun Clifford, a turner who was bitten by the bug at the age of 11 and still enjoys every minute

Despite serious searching, a decent full-face pic of Shaun has yet to show itself. So you will have to come and see him for yourself in September. There is an excellent commentary by Mark Baker on the Woodworkers Institute website <http://www.woodworkersinstitute.com/page.asp?p=3697>, encouraging us all to come and see Shaun demonstrate how to make a floating winged bowl out of a whole log.

Here are a couple of pics to whet your appetite

Very important notice!

Sainsburys is having work done to its top parking deck and has imposed a three-hour limit on its car park. This is being monitored by a private company which will impose a £60 fine on anyone who overstays

Your chance for fame!

This space is just waiting for you to post your items for sale, tools that you would like to own (Many members have tools they are never likely to use again on shelves in their workshops) and tricky questions about turning problems! Tips are welcome too. Come on, let's hear from you.
