3 lathes are put out for us all to have a play on and Jeff Cordery gets the ball rolling on one of them by starting a small end grain hollowing

Ken Elkington and Stanley Coombes have a bash at end grain hollowing using the new Rolly Munro hollowing tool. Ken and Stanley are more usually to be found pouring out the tea and coffee, but are more than prepared to have a go and try something new.

Some of the members mingling and talking over a problem on one of the lathes

Arthur Aldridge having a go on yet another of the lathes....

.... Followed by John Stinson under the watch full eye of Richard Hoodless
